

## What is Family Treatment Court?

The Marion County Family Treatment Court's main goal is to get parents reunited with their children. Every person working with parent-attorney, case manager, and even the magistrate/judge wants the parent to reunify with their children in a safe and healthy environment. To do this, the team members will work together to get the parent connected with the services and resources needed to give their children a safe home. This program is a partnership between the Courts, the Department of Children and Families, Guardian Ad Litem Program, Kids Central, Inc., defense attorneys, and other social service programs.

### Eligibility

In the event there was an indication of drug involvement in the removal affidavit and/or drug problems were identified by a case manager in assessment, it may be in the best interest of a parent, their child(ren), and the State of Florida that the parent participates in the Family Treatment Court Program. Additional details on this are available for your review.

The Program utilizes a 4-phase plan. The drug court staff is committed to support & assist throughout the reunification plan by connecting the parent with a treatment provider and resources available within the community. Our team monitors participation and movement through phases. Participants in the Program are encouraged to be accountable and can expect to receive incentives to acknowledge success/progress and therapeutic adjustments to address areas that need improvement.
